

CYBERLABTEENS

<http://cyberlab.ucr.ac.cr> by Dr. Allen Quesada Pacheco, UCR

CyberlabTeens 10 and 11

It is suitable for high school students at MEP. It is intended to help students with reading comprehension, vocabulary exercises, and reading strategy exercises which include (quizzes) with exercise types including:

- Multiple Choice
- Fill-in the Blanks
- Drag and drop
- Matching
- Listen and Speak
- Sequencing
- True-False
- Read and Write
- Vocabulary Acquisition
- Reading Comprehension skills
- Games

A major strength of the software is integration of skills, into the practicing and the learning of reading comprehension, vocabulary acquisition, and English grammar. There is an abundance of Reading and Listening and Speaking exercises.

One of the attributes of this software program is the elaborate feedback given to the student as they do the exercises. The students are given recognition for partially correct answers and encouraged to improve their answers in second or third efforts before they are given the correct answer.

At the end of the program there are plenty of opportunities to practice past English Bachillerato Exam practices online.

“CyberlabKids and CyberlabTeens were made with passion and love to public education in Costa Rica....please, spread the word...it is free.” Allen

No Internet Connectivity

If you don't have internet connection, you can download each unit separately to any computer with a zip file. Once you get the file on your computer just double click on it to unzip it, and everything in the unit will work!

Go to <http://cyberlab.ucr.ac.cr/download> and you will see the following

Apache/2.4.10 (Debian) Server at cyberlab.ucr.ac.cr Port 80

Mobile Ready

CyberlabTeens is multi-device; you can access it with a computer or Tablet or your cellphone.

CyberL@bTeens 10th and 11th is an interactive online solution for MEP public school students. The new development of Cyberlab products can now work perfectly with Android and iOS for tablets and smartphones.

The program integrates Reading comprehension with listening, vocabulary practice, grammar, and oral communication. CyberL@bTeens is based on real issues that are subdivided into pre, while and post Reading activities.

Go and experience practicing English when and where you want!
